Summary

Java & Python Full-Stack Developer with hands-on experience in Spring Boot, FastAPI, React.js, and MySQL. Skilled in building REST APIs, responsive web applications, and database-driven systems. Passionate about developing secure, scalable, and efficient software solutions with a focus on clean architecture and real-world impact.

Experience

Python Full-Stack Developer Intern

Feb 2026 – May 2026

VrishankSoft Pvt Ltd

Belgaum, Karnataka

- Developed full-stack web applications using Python, FastAPI, React.js, and MySQL in an agile development environment.
- Built secure backend services and RESTful APIs for user management, attendance tracking, assignments, and analytics modules.
- Created responsive and interactive user interfaces using React.js, HTML, CSS, and Tailwind CSS, ensuring smooth user experience across devices.
- Designed and managed MySQL databases with optimized schema design, relational tables, and efficient query handling.
- Used Git and GitHub for version control, debugging, collaboration, and maintaining project code quality.

Java Full-Stack Developer Intern

Feb 2026 – Present

Tap Academy

Bangalore, Karnataka

- Developing full-stack web applications using Java, Spring Boot, React.js, and MySQL in an agile team environment.
- Building secure backend services and RESTful APIs with role-based JWT authentication for multiple application modules.
- Creating responsive user interfaces using React.js, HTML, and CSS, ensuring cross-browser compatibility.
- Designing and managing MySQL databases with optimized schema design and complex queries handling 1000+ records.
- Using Git and GitHub for version control, collaboration, and maintaining code quality across team branches.

Projects

Chatpata | Java, JSP, Servlets, MySQL, JDBC, HTML/CSS | Live Demo

July 2026

- Developed a full-stack food delivery web application using Java (JSP & Servlets) and MySQL, covering the complete customer-to-restaurant order flow.
- Implemented secure authentication with BCrypt password hashing and session-based role access for Customers and Restaurant Owners.
- Built a real-time cart and checkout system using AJAX (Fetch API) for instant updates without page reloads.
- Designed a Restaurant Owner dashboard for menu management and live order status tracking; deployed live on Render with a MySQL-backed database.

AcademiQ | Python, FastAPI, React.js, MySQL, SQLAlchemy, JWT | Live Demo

May 2026

- Developed a full-stack Academic Management System using React.js, FastAPI, and MySQL, with RESTful APIs integrated via Axios.
- Implemented JWT-based authentication with role-based access control for Admin, Teacher, and Student users.
- Designed relational MySQL schemas and performed CRUD operations using SQLAlchemy ORM.
- Integrated an AI-based student performance prediction model using Scikit-Learn.

Technical Skills

Languages: Java, Python, JavaScript

Frontend: React.js, HTML5, CSS3, TailwindCSS

Backend: Spring Boot, FastAPI, Node.js, Express.js, REST APIs, JWT Authentication, Server-Sent Events

Databases: MySQL, MongoDB, JDBC, JEE, JSP, Spring Data JPA, Hibernate ORM

Tools & Platforms: Git, GitHub, Postman, VS Code, XAMPP

Core Concepts: Object-Oriented Programming (OOP), Data Structures, REST Architecture, Machine Learning, Problem Solving

Education

Yenepoya Institute of Technology

2022 – 2026

Bachelor of Engineering in Computer Science

CGPA: 8.55 / 10.0

S.D.P.T P U College, Udupi

2020 – 2022

Pre-University (PCMB)

Percentage: 83.33%
