SUMMARY

Aspiring Software Engineer and Java Full-Stack Developer with hands-on experience in **Spring Boot, React.js, and MySQL**. Skilled in building **REST APIs, responsive web applications, and database-driven systems**. Passionate about developing **secure, scalable, and efficient software solutions**.

SKILLS

- **Programming:** Java, Python, JavaScript
- **Frontend:** React.js, HTML, CSS, TailwindCSS
- **Backend:** Spring Boot, REST APIs, Node.js, Express.js
- **Database:** MySQL, MongoDB, JDBC
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures, Problem Solving

EXPERIENCE

Java Full-Stack Developer Intern

Feb '26 — Present

Tap Academy, Bangalore, Karnataka

- Developing full-stack web applications using **Java, Spring Boot, React.js, and MySQL**.
- Building secure backend services and **RESTful APIs** using Java and Spring Boot.
- Creating responsive user interfaces using **React.js, HTML, and CSS**.
- Designing and managing **MySQL databases**, including schema design and optimized queries.
- Using **Git and GitHub** for version control, collaboration, and maintaining code quality.

PROJECTS

NeuroCart – E-Commerce Web Application

Feb '26 — Feb '26

Java, Spring Boot, React.js, MySQL, JWT Authentication, REST APIs, Git, GitHub

[Project Link](#)

- Developed a full-stack e-commerce web application using **Java, Spring Boot, React.js, and MySQL**.
- Implemented secure **REST APIs with JWT authentication** for user login, product browsing, and cart management.
- Designed responsive frontend and integrated it with MySQL database using **Git and GitHub** for version control.

Autonomous Research Agent — AI-Powered Research Platform

Mar '26 — Mar '26

React.js, Spring Boot, MySQL, Groq API, Tavily API, Server-Sent Events, Git, GitHub

[Project Link](#)

- Built a full-stack AI research agent using **React.js, Spring Boot, and MySQL** that autonomously searches the web, analyzes articles, and generates structured research reports with citations.
- Integrated **Groq Llama 3.3 70B** for AI-powered report generation and **Tavily Search API** for real-time multi-source web search.

- Implemented **real-time agent step streaming using Server-Sent Events (SSE)** to push live updates from the Spring Boot backend to a React dashboard.
- Designed and managed **relational MySQL tables** using **Spring Data JPA** and **Hibernate ORM** to store research sessions, search results, agent steps, reports, and citations.

Blood Donation Management System
PHP, HTML, CSS, MySQL, XAMPP
Project Link

Aug '25 — Sep '25

- Developed a web application using **PHP, HTML, and CSS** to manage blood donor information and connect donors with recipients.
- Implemented a **MySQL database** to manage donor registration details, contact information, and blood groups.
- Used **XAMPP** to configure and manage the local server environment for development and testing.

CERTIFICATIONS	
• Machine Learning with Python — IBM	Jul '25
• Python for Data Science — IBM	Jul '25
• Amazon Aurora MySQL and Amazon RDS MySQL — AWS Training & Certification	Aug '25

EDUCATION	
B.E in Computer Science Yenepoya Institute of Technology CGPA: 8.44	2022 — 2026
P.U in PCMB S.D.P.T P U College, Udupi Percentage: 83.33	2020 — 2022
